

The 2nd International Sports Analytics Conference and Exhibition (ISACE)

26-27 September 2025, Shanghai

Website: <https://formal-analysis.com/isace/2025/>

Sports analytics is the application of AI, data science, psychology, and smart devices to improve sports performance, strategy, and decision-making. It involves collecting, processing, and interpreting data from various sources such as video footage, performance metrics, and scouting reports, and using this information to gain insights into player and team performance, prevent injury, and help coaches and team managers to make more informed decisions and optimize their resources to achieve better results.

The vision of this International Sports Analytics Conference and Exhibition (ISACE) series is to bring leading academics, researchers, coaches, psychologists, managers, and technologists together to advance the state-of-the-art of sports analytics. The location will move around the world's cities with a timing that is likely to be 1-2 weeks before or after a major sporting event which may form one of the themes of the conference. The upcoming 2025 ISACE, hosted by Shanghai Jiao Tong University, will take place in Shanghai, China from 26-27 September 2025.

Conference proceedings will be published in the **Springer LNCS series**. **Best papers** will be awarded a certificate and a book voucher by Springer-Nature. Selected papers will be invited to submit an extended version to a **special issue of the Springer-Nature Computer Science journal**.

• Important Dates:

Paper submission: 15 June 2025

Notification: 1 July 2025

Event: 26-27 September 2025, Shanghai, China
